Message from a client: Brewline Coffee

hi! i'm Jordan, i'm opening a small coffee roastery called **Brewline Coffee** in about 3 weeks.

i need a logo. nothing too fancy, warm and friendly, something that looks good on cups, bags and the shop sign. i like earthy colours (browns, cream) but i'm open to ideas.

i'd also love to get it in a format my sign maker can use, and a version for instagram. not sure what file types that means, you tell me :)

my budget is around $300 total. i need the logo done within 10 days because the printing takes a while.

if i like it i might ask you for business cards and a menu design later.
