Content Request: Nimbus Analytics

Company: Nimbus Analytics, a B2B SaaS company that sells dashboard software to operations teams.

What we need: One blog article of about 1,500 words for our website. Topic: common mistakes teams make when building business dashboards.

Audience: operations managers and data analysts at mid-size companies. Tone: clear, practical, no jargon.

SEO: the article should target the keyword "business dashboard best practices" and include a short meta description.

Extras: two rounds of edits are included. We may order a monthly series if the quality is good.

Budget: $200.

Timeline: 5 working days for the first draft.
